

AEX Insulating Adapter is for the connection on outer cone bushings Type C according to EN-50181. Can be used to connect any type of cable, irrespective of whether it is paper or plastic insulated or has one or three cores.

The insulated adapter termination system provides perfect sealing, electrical insulation and an electrical connection between terminations and SF6-insulated switchgear up to 24 kV. The compact design of the adapters and their clear cut profiles simplify installation. The electrical connection with the aid of a stud renders additional fastening systems unnecessary.

The adapters are watertight and can operate under extreme environmental conditions with severe pollution.

❖ Features & Benefits:

- Perfect sealing, electrical insulation and electrical connection
- Connection to bushing Type C according En80181
- Insulating adapter is compatible with all terminations
- Adapters are water tight
- Universal technology increasing the reliability, irrespective of the type of cable used in the network
- Unlimited shelf life
- Simple and fast installation
- Energized immediately after installation

Selection Chart			
Product Code	Voltage Level	Cross Section (Sq.mm)	Dia. of Termination (mm)
ARICS 5133	24 kV	95 - 185	27 - 35
